NAVARRA, A REGION SUPPORTING THE SUSTAINABLE ENERGY

## D2.4 Dissemination documents related to the programme of local investments

Version 1.0

Date January 2020

The project has received funding from the European Union's Horizon 2020 research and innovation programme under Grant Agreement n°785045.  
The content here included reflects only the author's views and the EASME is not responsible for any use that may be made of the information it contains.

## DOCUMENT CODIFICATION

Project number	785045	Acronym	sustainAVility
Full title	Navarra, a region supporting the sustainable energy		
Project URL	<a href="http://www.sustainavity.eu">http://www.sustainavity.eu</a>		
Document URL			
EU Project officer	Christophe MILIN		

Deliverable	Number	D2.4	Title	Dissemination documents related to the programme of local investments
Work package	Number	WP2	Title	Mobilisation of Public Investments in Sustainable Energy Projects

Date of delivery	Contractual:	M15	Final Delivery:	M24
Author	Gobierno de Navarra			
Status				
Contributing beneficiaries				
Nature	Websites, patents filling, etc.			
Revisions				
Dissemination level	PU			
Abstract for dissemination	Dissemination documents related to the programme of local investments			
Keywords	Dissemination documents			

PU = Public

PP = Restricted to other programme participants (including the Commission Services)

RE = Restricted to a group specified by the consortium (including the Commission Services)

CO = Confidential, only for members of the consortium (including the Commission Services)

## INDEX

1	DESCRIPTION OF THE DOCUMENTS.....	4
1.1	Presentation slides of the call.....	4
1.2	Frequently asked questions guide.....	5
ANNEX 1	PRESENTATION SLIDES OF THE CALL.....	6
ANNEX 2	FAQs – FREQUENTLY ASKED QUESTIONS OF THE CALL.....	44

## 1 DESCRIPTION OF THE DOCUMENTS

This deliverable is referred to the task 2.1 "Support programme for local investments in energy efficiency", specifically, to subtask 2.1.2 Publication of the calls.

Once the calls are drafted, the greatest possible dissemination has been given through various channels of communication.

First of all, the overall conditions of the calls have been published in the Navarre Official Journal, in accordance with the applicable regulations (Regional law 11/2005, of November the 9th, for grants). Moreover, they have been published and disseminated through other communication channels. In particular, calls have been published in a specific webpage, leaflets have been distributed, press conferences have been given, etc. The URL of the call for aid to local entities for the promotion of energy efficiency, the implementation of renewable energies and the promotion of electric mobility 2019 is indicated below:

[https://www.navarra.es/home\\_es/ServiciosEmpleado/ficha/16794/Convocatoria-de-ayudas-a-entidades-locales-para-la-promocion-de-la-eficiencia-energetica-la-implementacion-de-energias-renovables-y-el-impulso-de-la-movilidad-electrica-2019](https://www.navarra.es/home_es/ServiciosEmpleado/ficha/16794/Convocatoria-de-ayudas-a-entidades-locales-para-la-promocion-de-la-eficiencia-energetica-la-implementacion-de-energias-renovables-y-el-impulso-de-la-movilidad-electrica-2019)

A frequently asked question guide has been prepared to help stakeholders to apply for aids.

For all that, collaboration with the network of agents of local development is required, as they constitute the point of connection in the relationship with local entities. In this way, the specific characteristics of the various zones of Navarre will be taken into account so that previous work will be adapted to the specific needs of each area. Diverse conferences to diffuse the call for aid to local entities have been held in venues of agents of local development. To achieve that, a presentation of the call has been prepared, which is distributed among local entities.

### 1.1 Presentation slides of the call

Once the call for aid to local entities for the promotion of energy efficiency, the implementation of renewable energies and the promotion of electric mobility is published in the Navarre Official Journal, diverse conferences to diffuse the call are arranged throughout Navarre.

First, an introduction is made contextualizing that the purpose of this call for aid is to help achieve the objectives of the Energy Plan of Navarre horizon 2030. Subsequently, the general conditions of the regulatory bases are explained. Finally, the particular conditions of the three eligible measures of the call for aid are developed. During the presentation, all doubts raised are resolved.

## 1.2 Frequently asked questions guide

The main idea of this guide is to solve doubts of stakeholders regarding the call for aids. From our experience, most of the doubts received from interested parties are repeated. For this very reason, the elaboration of a guide where the main doubts are resolved has been considered. Furthermore, this guide is not fixed, but is updated as new questions from stakeholders are resolved.

This guide is accessible to everybody through the URL above-mentioned. Moreover, a telephone number and an email address are available to answer any questions that may arise.
